## Playgrounds Plagued By Destructive Vandals

Considerable damage is being done at the town's playgrounds, according to James D. Doherty, chairman of the Recreation Committee.

The acts of vandalism have not occurred at any special ground, more than the others. But Mr. Doherty pointed out that much of it is costing the town quite a lot of money.

It cost close to \$200, he explained, just to replace all the drums on which the raft floats at Pump's Pond. Someone had shot

the drums full of holes with a .22, he stated, necessitating replacement on a hurry-up basis.

Fifteen panes of glass have been broken at the Richardson School in Shawsheen; and someone broke into the small building at Ballardvale where playground equipment is kept.

A standard on which three swings hung at Central Playground is out of commission because some youngsters rammed the three legs of the standard repeatedly with an old automobile. The legs were so bent that it was determined they could not be heated and straightened without seriously weakening the whole structure.

Other, smaller acts of vandalism have been occurring at all the grounds he stated.

Whenever these occur, they are being reported to the police for investigation, Doherty said.

He also pointed out that, in many cases, it is the playground youngsters who suffer most. As at Central, the three swings are the ones most easily used by the smaller children. They will not be replaced during this season.

## Refuse To Allow Location Change

The Selectmen have unanimously denied a request that a limited package store license owned by Deady's Inc. be transferred to Park st. from its Boston rd. location.

If the transfer of location had been approved, the Selectmen would have then been asked to allow a transfer of stock in the firm to Johnny's Market.

Monday night's decision came soon after a hearing, where Atty. Richard Gordon told the Board that he represented opponents of the request. The major reason for opposition, he stated, was that enough competition exists in the particular area, without adding another package store in the center of the town. He also referred to at least one store owner in Shawsheen, whom he said was interested in obtaining

## Suggests Dump Be Re-located

Selectmen Philip K. Allen has urged town officials to give serious consideration to obtaining another site for the town dump.

He termed the conditions at the present dump as a "mess" and suggested a sanitary land fill type of dump be considered. Although Allen commented that he was still satisfied with the closing of the dump on Sundays, he said conditions there are getting worse.

People don't dump their refuse near the fire, he commented, rather, they just drop it anywhere.

## Absolute Secrecy Surrounds Identity Of Purchaser

Absolute secrecy surrounds the reported agreement by the Boston and Maine Railroad to sell part of its extensive holdings in the industrial area of Lowell Junction.

Railroad officials have confirmed, however, that the land is now in the process of being sold to a buyer whose name remains a closely-guarded secret. Also unknown is the potential land use — the Railroad will not discuss the type of business that might be conducted there by the purchaser.

George Hill, public relations man for the Railroad, said the negotiations involve about five of the 75 acres owned by the B&M. And he confirmed that the tract is the same section from which the Railroad hauled gravel many years ago. However, he did not indicate in any way that the use of the

land would be connected with a gravel pit, if the sale is completed.

The B&M's holdings in Lowell Junction are felt to be the "heart" of the industrial area in the Junction. Thus persons concerned with industrial development have expressed keen interest in any sale of land, as it will, they feel, vitally affect the future of the entire industrial expansion program in that area.

### Might Help Access

One Boston and Maine spokesman told the Townsman this week that he "assumed" the sale of the land would help, not hinder, municipal officials in their request to the state for an access to Route 93 somewhere in the Lowell Junction industrial area. Based

## ENTERTAINS MEN FROM HOSPITAL

Mrs. Herbert Allicon, Red Cross gray lady, last week took seven patients at the Bedford Veterans Hospital to Canobie Lake for the day. The patients were men who work on the wards and were being given a week's vacation from their duties. Each local Red Cross chapter has cooperated in giving them a day's outing.

Yesterday, Mrs. Allicon brought eight patients, who work with her in the print shop at the hospital, to the Log Cabin for a cook-out.

## SECRECY SURROUNDS LAND PURCHASE

(Continued from Page One)

on the Railroad's policy of not discussing the identity of any buyer, or possible land use, no more definite statement could be obtained regarding possible help in the quest for an access.

Although a clear-cut answer to questions involving the sale were not available, one Railroad spokesman said he anticipated that no more than a month will be required to complete the transaction.

It was learned by the Townsman from other sources that negotiations for the five acres have gone so far that inquiries from interested parties have been politely turned aside.

### Access Road Vital

Considerable interest has been shown in the reported sale of the B&M property, because it may be the key to obtaining an access to Route 93. Town officials and officials of neighboring communities of Tewksbury and Wilmington have expressed concern about the future of the area, unless there is some way to get onto the new road.

Members of the town Development and Industrial Commission, with the State Department of Commerce, have appealed to the state Department of Public Works for assistance in obtaining the access. Representatives of industries in the area, particularly the Reichhold Chemical Co., have also been specially interested in obtaining the access.

After a conference in Boston some weeks ago, the state promised to survey the area and try to find some solution — either via a direct access or possibly a Chapter 90 secondary road that would lead to an existing access point. There has been no direct word from the state agency as to the results of a survey, but representatives of the DPW have been working in the town on this project in recent days.

### Gravel Pit Possibility

There have been persistent rumors that the buyer from the B&M will want to remove sand and gravel from the property, a course of action that requires a permit from the town.

Officials have pointed out that the community, through the Board of Selectmen, must move very carefully if this happens. The acreage, it is explained, could be improved considerably by judicious removal of gravel, but careful controls would be needed to be certain that the area was left as desirable industrial land, and not a section that would not lend itself to further use for industry.

### SUGGESTS RELOCATING TOWN DUMP

(Continued from Page One)

he believes many Lawrence businesses send their trucks over here with refuse — and he thought there should be some definite steps taken to prevent this.

At present, the town pays a man at the rate of \$325 monthly to take care of the dump. He provides his own bulldozer, however.

**REFUSE TO ALLOW  
STORE LOCATION**

(Continued from Page One)

a license if possible. He thought that licenses should be spread out more than would be the case if the transfer had been allowed to Park st.

Atty. Vincent Manzi represented John Troionello and his wife, while Atty. Charles Statuti appeared for the Deady corporation.

Statuti told the Selectmen that the location on Boston rd. is not a good one, and that the Deady's do not want to just abandon the license. Rather, he stated, the desire was to transfer the stock to Johnny's, if the location could be changed. He suggested the Board should decide, first, whether the location would be suitable. Then, he stated, the following decision was whether the Troionello's would be suitable persons to own such a business.

Atty. Gordon said there would be no debate over the fitness of the individuals. Rather, he stated, the prime issue is whether the Board wished to have stores on opposite corners, competing with one another. By having them spread around, he said, competition could be avoided. He urged the Selectmen to decide whether the common good would be served by competition.

Atty. Manzi told the Board that a recent decision of the Supreme Court of the state held that grounds of competition did not give a petitioner the right to appear in court in an attempt to block a transfer into the petitioner's area.

Later in the meeting, Town Counsel Fredric S. O'Brien told the Selectmen that the decision held that a package store owner could not use increased competition resulting from a proposed transfer as grounds for a lawsuit seeking to prevent the transfer.

The Board voted unanimously to refuse the transfer here, on the motion of Selectman William Stewart.

Mr. Stewart said he believes there are enough licenses in the area up-town. He also said he was for allowing anyone to apply who wants a license, if one is to be given out. He also commented that the package store owners who would be in competition with the proposed store derive their whole living from their businesses, while Johnny's Market has other interests than a package store.

He also referred to the fact that the Deady corporation was only recently formed, after receiving approval from the Selectmen. He suggested at that time that the Selectmen should keep control over any transfer of stock that would result in different ownership.

Selectman James D. Wilson agreed that there are enough package stores in the area, stating "there's no need for another".

After polling the other members of the committee, Chairman Eugene A. Bernardin announced the

decision as a unanimous one.

During the discussion, it was pointed out that a petition against the transfer, bearing about 300 signatures, had been presented to the former Board of Selectmen.

Another, with about 190 names, was turned over to the Board Monday night.

## EDITORIAL THOUGHTS

### Stiff Punishment Is Deterrent

Vandalism is an ugly thing.

Whether it occurs on public property, or affects private buildings, all citizens should be aroused to its dangers, its implications.

As we have reported in other years, the playgrounds are now being subjected to malicious destruction — it's a situation that crops up year after year. There probably aren't too many persons involved, nor is the damage so tremendous. It's the idea that young people can get away with destroying public property that is appalling.

For after any one, or group, of young people has succeeded in doing damage to a playground facility, or any private property, there is a tendency for the individuals to do more damage elsewhere. If it's fun to break up public property, then it must also be hilarious to bust up private property. Anyone can see that vandalism that goes unpunished can snowball into more serious situations.

When and if the persons are caught, who have been destroying playground equipment, sufficient punishment should be handed out so that the individuals will always remember it doesn't pay to destroy property. This would also be an object lesson to those who watch others commit acts of vandalism and who think this would be fun to do and a cinch to get away with.

We don't believe that the youngsters currently involved in the vandalism are "bad" youngsters — but they sure need to be punished before they get the idea that no one cares what they do. Perhaps their parents should also receive some kind of punishment, because they either condone the activities, or they just don't know or care where their youngsters are late in the evening, or what they're doing.

### Down the Years with The Townsman

#### 50 Years Ago — July, 1909

Principal Charles L. Curtis, of the High School, David J. Allen and Myron E. Gutterson are spending their vacation in the White Mountains.

Dr. J. P. Torrey has sold his driving horse to Charles Hayward of North Andover.

New automobile laws have been placed in effect: autos of more than 10 horsepower must have two brakes; there must be a muffler to cut down the noise; a signalling device is required; every possible precaution should be taken to avoid startling horses and the drivers of autos must stop their engines if the driver of a horse requests it; outside of thickly settled areas and the business parts of town, a speed of 20 miles per hour is advisable; in thickly settled portions of the town, 15 miles per hour is permitted; and in turning a corner, at crossings and intersections of ways, autos may proceed eight miles per hour.

John Radford Abbott, Gaylord Merritt Gates, Philip G. Morrison, Timothy J. O'Sullivan, Roy E. Hardy and Charles C. Kimball were listed on the honor roll at Phillips Academy for the spring term.

#### 25 Years Ago — July, 1934

The old "Almshouse" in Shawshen Village is being remodelled by the Textile Realty Co. into eight three and four-room apartments. The structure most recently has been the location of the Snow Sanitarium.

Edward Shattuck of West Andover has been appointed by Governor Ely as one of three members of the new Milk Control Board.

Camp Andover, for 14 years located on the shores of Pomp's pond, has been moved to Lake Winnisquam. Directors of the camp claim the step was taken because a location was needed that will be more quiet. The camp is used for children from the cities, and has been located on 60 acres of land donated by F. Homer Foster.

James Ryley, soccer coach at Phillips Academy, has taken charge of the Town Team for the remainder of the baseball season.

The Abbott family held a reunion Saturday evening at the home of Mr. and Mrs. James J. Abbott.

Over \$375 in prizes will be awarded at the third annual bugle and drum corps competition at the Playstead Aug. 5. The Legion is sponsoring the event.

#### 10 Years Ago — July, 1949

Fire Chief C. Edward Buchan has appointed two deputy chiefs: Albert Cole Jr. and Henry L. Hilton. The two men were numbers one and two on the Civil Service list, and their names have been submitted to that office for approval. Five firemen passed the exam for the job.

A fire loss, estimated at \$5,000, occurred early Saturday night at the home of Trial Justice James K. Gordon on Lowell st. Fire officials blamed spontaneous combustion for the blaze. Mr. Gordon's father spotted the flames while he was working in a field at the rear of the premises.

Five playgrounds opened Monday, with a total registration of 475. James D. Doherty is supervisor of the playgrounds this year.

Final plans for the veterans' housing on Morton st. have been sent to the State Housing Board for approval. When that step has been taken, the specifications will be sent out for bidding, according to Atty. Charles G. Hatch, chairman.

The Selectmen have agreed to instruct the fire department to use added caution in the speed of fire trucks driving through residential and crowded business areas. Several residents appeared to ask that this be done. A speed of 45 miles per hour will be suggested for North Main st. and "reasonable" speeds in other areas.

### Wants To Contact Twins' Mothers

The officers and Executive Committee of the Mothers of Twins Association of Boston and surrounding communities met Wednesday evening, June 17, at the Melrose Chapter of the American Red Cross to formulate plans for new chapters.

Mrs. Richard G. Slade, 51 Red Spring rd., was present to represent the greater Lawrence area. Mrs. Slade needs, in addition to herself, three mothers of twins to attend the next meeting to be held July 15 at 8 p.m. at the Robbins Library in Arlington.

#### Story Hour

The theme of the Tuesday morning story hour July 7, at 11 o'clock, is to be "Stories Of Long Ago". Boys and girls who enjoy story hours will want to follow the series through the month of July. At each program there will be a portion of the story of "Princess And The Goblin" told. This favorite fairy tale by George MacDonald is filled with mystery, excitement and surprises. No tickets are required for any of the story hours.

#### Summer Hours

The library is open daily for adults from 10 a.m. to 9 p.m. Monday through Friday. Children's room is open daily 10 a.m. to 12 noon, and 2 p.m. to 5 p.m. on those days. Both rooms are closed Saturdays through the summer.

#### Travel By Books

If you know that travel abroad is not part of this summer's picture, why not enjoy armchair travel, entirely possible if readers will look over the excellent travel books in the library, and take a generous number home to porch or hammock. The State Department has indicated that Europe is the destination of many U. S. tourists, so the library is displaying a number of books that will be pleasant to read now, and a source of information for plans in the future. Harold Newman's "European Travel Guide", Richard Joseph's "Guide To Europe and the Mediterranean" and Temple Fielding's "Fielding's Guide To Europe" have splendid background information for the traveller. The planners who must stay within a strict budget are advised to begin now to study David Dodge's "Poor Man's Guide To Europe". The woman traveller should take her cue from "Go It Alone, Lady!" by Edith Meyer. Beneath a travel poster on the display wall, there is a table of travel guides, pictorial material, tourist information, background books, maps and even vocational guides for those who feel that working in travel fields would be exciting. All these are ready for the borrower, and represent a very small portion of the library's holdings in the field.

### Red Cross Car Keeps Busy

Monday, Mrs. Leon Field, chairman of the Red Cross Motor Corps, drove five volunteers to the Boston Blood Center to staff the center from 10 a.m. to 3 p.m. Mrs. Frank Crawford, Mrs. Diana Penick, Miss May Tambo, Mrs. Archie Gunn and Mrs. Harold Goddard were kept busy processing an unexpectedly large number of donors who defied the heat to appear. Since the blood supply is always low in the summer, the Red Cross is most grateful for any walk-in donors to the center at 314 Dartmouth st.

Mrs. Field and her motor corps drive every day for the Red Cross, taking patients to the hospital for treatments, transporting ladies to the veterans' hospitals, delivering blood and equipment, driving members of the Reading Circle of the Blind, and doing the countless necessary errands. The Red Cross automobile goes between 12,000 and 14,000 miles a year and wears out particularly fast because of the number of different people who drive it. A new station wagon has just been purchased for their use.

WYSOCKI - DESROCHES

At a 10 o'clock ceremony in the St. Augustine's Church, Saturday, June 13, Miss Lorraine O. Desroches, daughter of Mr. and Mrs. Clarence Desroches, 135 No. Main st., became the bride of W. Robert Wysocki, son of Mr. and Mrs. Walter Wysocki, 38 Wilson st., Haverhill. The Rev. John Driscoll, O.S.A., of Merrimack College, officiated at the ceremony before an altar adorned with gladiolas and poms.

The bride, escorted to the altar by her father, wore a gown of hand-clipped Chantilly lace over white

satin, styled with a fitted lace bodice, sabrina neckline jeweled with sequins and seed pearls, long pointed sleeves. Front tiers of permanent nylon pleating accented the bouffant skirt which ended in a full chapel train. Her imported veil of illusion with lace trimmed edge was jeweled with sequins and pearls and attached to a coronet of seed pearls and rhinestones. Her wedding bouquet was of stephanotis centered with a white orchid.

Mrs. Rhoda Blanchard of Danvers, sister of the bride, was matron of honor. She wore a cocktail length dress of flocked white nylon organza over deep aqua taffeta, styled with capped sleeves, scoop neckline and two tapered taffeta streamers falling from the mid-back to hemline over a bouffant skirt. She carried a cascade arrangement of light pink glamelias and rosettes. Miss Maureen Scanlon of Andover and Miss Lorraine Nadeau of Lawrence, as bridesmaids, were gowned in pale aqua, similar in style to the matron of honor's gown. They carried cascade arrangements of deep pink glamelias and rosettes. All wore matching headpieces of net in petal formation over light aqua leaves.

Richard Wysocki of Haverhill, cousin of the bridegroom, was best man. George Dirago and Donald Martin, both of Haverhill, were the ushers.

Mrs. Desroches chose a blue lace dress with white accessories and had a white orchid corsage for her daughter's wedding.

The bridegroom's mother wore a beige dress, hat of pink rosebuds and net and had a pink rose bud corsage.

A reception was held at the Yankee Doodle Colony Room with guests present from Florida, Maine, New Hampshire, Walpole, Boston, Marlboro, Methuen, Reading, Haverhill, Danvers and Lawrence. Following a wedding trip to Miami Beach, Fla., the couple will reside in Haverhill.

The bride is a graduate of Pynchard High School and Merrimack College and is employed as a stenographer at AVCO in Wilmington.

Mr. Wysocki, a graduate of Haverhill High School, will graduate with the class of 1960 from Northeastern University with an electrical engineering degree. He is a member of Tau Beta Pi and Eta Pappa Nu, IRE, honor societies. He is a co-op student and is employed in research and development at the AVCO plant in Wilmington.

The funeral of Mervin E. Stevens, 63, 1 Cedar rd., head of the Commercial Department of Andover High School, who died suddenly June 28 at his home, was held Wednesday from the Lundgren Funeral Home. Services took place at 3:30 o'clock at the South Church, with the Rev. Frederick B. Noss, minister, officiating. Cremation took place in Harmony Grove, Salem.

Mr. Stevens was born in Franklin, N. H., and was a resident of Andover for 36 years. During this period he was a member of the faculty at Andover High School and at the time of his death held the position of head of the commercial department. The well known educator directed many of the school plays during his long tenure of office with the school department. He only recently had received merit recognition in the school system.

Mr. Stevens was a veteran of World War I and was a member of South Congregational Church, and St. Matthew's lodge, A.F. and A.M. of Andover. He was also affiliated with the Commercial Director's club of Boston.

He leaves his wife, Marjorie (Faunce) Stevens; also two sisters, Miss Flora Stevens of Tilton, N. H., and Mrs. Ernest Sanborn of East Point, Ga.

JOHN A. CRONIN

The funeral of John A. Cronin, 392 South Main st., who died suddenly at his home June 27, was held Tuesday, June 30, from the R. George Caron Funeral Home in North Andover, with a high Mass of requiem in St. Augustine's Church at 9 a.m. Burial was in Immaculate Conception Cemetery, Lawrence.

Mr. Cronin was formerly the sales manager of the Sealtest Foods Division of National Dairy Products Co. Dr. John T. Batal, medical examiner, said death was caused by a coronary thrombosis.

Mr. Cronin was stricken at his home at 6:50 a.m. He was taken to the hospital by the Andover fire department ambulance. Oxygen was administered by the ambulance crew, but to no avail. He was pro-

nounced dead on arrival at 7:20 a.m.

Born in Lawrence 65 years ago, he retired only last month after 40 years of service with the Sealtest Foods Division of the National Dairy Products Company, the only company he worked for, beginning in 1919. Rising rapidly in the company, he combined night education at Boston University with practical experience and ambition. Mr. Cronin was first made sales manager of the company and when it became part of General Foods, he became their district sales manager for Eastern Massachusetts. Ultimately he served as manager of the Bushway ice cream division of the National Dairy Products and finally as sales manager of Sealtest Foods.

He was active in many civic and fraternal organizations and devoted much of his time to American Legion work, serving as past commander of American Legion post 219. He was also a member of the Rotary Club of Boston, the Boston Chamber of Commerce, the Lawrence Chamber of Commerce, the University Club of Boston, the Y. D. Club of Boston, the Boston Sales Managers Club, the Lawrence Lodge of Elks, 65, Lawrence council 67 Knights of Columbus and the Kiwanis Club of Lawrence.

The survivors include his wife, Theresa (Mullins) Cronin, three daughters, Priscilla, wife of Robert Quintal of Lawrence; Sheila, wife of Chester Campbell of Everett; and Anne Theresa, of Andover; three sons, John, Michael and David, all of Andover; two sisters, Mary Cronin of Lowell and Helen, wife of Dr. Joseph Dineen of Lowell; also five grandchildren and several nieces and nephews.

MERVIN E. STEVENS

Mr. Mervin E. Stevens came to our town as head of the commercial department of Pynchard High School in 1923, fresh from experience in a private commercial school in Canada.

His sincerity and high ideals, which were an integral part of his personality, quickly established him as nothing less than a perfectionist, tempered by a kindly sympathetic interest in people, especially in young people of high school age. He expected and was satisfied with nothing less than real effort and believed that if proper motivation were presented, effort naturally would follow. This he always attempted to supply or supplement.

The results of this man's idealism and work were soon apparent in the tone of the commercial department and in the county awards won by his pupils in open competition. He did much toward establishing and maintaining the high reputation that Pynchard enjoyed and still maintains.

Financial remuneration was always a minor part of his consideration. He gave of all his talents and abilities to the school and our society which he naturally considered as his. He spent his energy and money improving and increasing his usefulness to both. He became active in extracurricular activities of his school, contributed greatly to the religious life of the community and served on many committees of our purely civic organizations.

In our school life, he lifted dramatics to an enviable level. He took courses in dramatics to increase his ability and so help

our young people in this type of endeavor. The results in this field were soon apparent.

Under his direction Pynchard entered into state and sectional competition with most satisfactory results; actually tying for first place with towns and cities of our state.

His ability in dramatics was recognized by adult organizations and sought for by them. He freely gave of himself when opportunities offered and there are many people in our town who have proud, fond memories of their productions to which he contributed so richly.

The dramatic training which he sought lead naturally to study of speech in all its phases. It seemed natural for Mr. Stevens to take over coaching of contestants for the speaking contests, which were an important part of our school's public contacts as were the graduation exercises. The smoothness of our graduation exercises are a living tribute to this man.

At the request of our principal, Mr. Nathan Hamblin, Mr. Stevens revived the school paper and made an outstanding publication of it. He believed that all parts of publication should be carried on by the pupils and so special equipment was purchased and the actual printing done by the pupil members of the Staff.

Physical energy and time are limited and the school authority found it necessary to turn the school paper over to another in order to free Mr. Stevens for other work. It was not long before, to his disappointment, the paper ceased to be published.

Many of us have heard the beautiful and impressive voice of this man as he sang in the choir of his church. That voice is now silent but not forgotten; he has placed his mark on our school; his direct services to our town can not be forgotten. He was a sensitive, emotional person, loyal to his friends and ideals, deeply religious and so he played his part in maintaining the important dignity of man in which we are so justly proud.

## Raytheon Received Huge Order

Award of contracts totalling approximately \$161 million to Raytheon Company for continued production of the HAWK missile

system has been announced by the Department of the Army.

Of the total, more than \$61 million is for missiles, \$84 million for ground equipment, and \$16 million for engineering services. Each contract finalized letter orders previously announced, as well as new money totalling \$61 million.

As prime contractor for the HAWK missile system, Raytheon will perform most of the work under these contracts at its Andover, Missile Systems Division plant. Approximately 2800 subcontractors will share in production of components.

HAWK is the Army's killer missile designed specifically for use against low altitude targets.

## 689 Registered Monday At Town's Playgrounds

First-day registrations on the playgrounds this week totalled 689, with all scheduled activities getting off to a good start.

Special events are scheduled on all grounds today and tomorrow.

At Central, a baby picture contest will be held at 10 a.m. Friday. Some 235 youngsters registered there Monday. Arts and crafts at the Central this week has included working with felt.

In Ballardvale, 221 boys and girls registered. The special activity will be a hat show, at 11 this morning. Youngsters have been working with paper weights in the arts and crafts program.

A talent show will be held this morning at 11 at the Shawsheen playground, where 113 youngsters have registered. Arts and crafts work has been in basket weaving.

Indian Ridge youngsters will enter their pets in a show today at 11. Sixty-two boys and girls have registered there, and the arts and crafts work has been with pot holders.

At West Center, a parade on wheels is scheduled for tomorrow morning at 10:30. The use of raffia in coloring has been the arts and crafts project this week, for the 57 youngsters registered.

### Twi-League

In the Twi-League, the Tigers are off to a fast start, with a 2-0 record. Tied for second are the Dodgers and Ballardvale, with a 1-1 record. The Youngsters are in the cellar, losing both of their games through Monday night.

Playground supervisor George Snyder this week complimented the Department of Public Works for its work with the diamonds—commenting that the ball fields have been in excellent shape not only for the Twi-League, but also for Little League.

### Wheaton Club Met To Plan For Year

Mrs. J. J. Tavern, president of the Merrimack Valley Wheaton Club, entertained the members of her board at a supper meeting on Monday during which plans for the coming club year were made.

At the annual meeting held recently at the summer home in Rye Beach of Dr. Mona Mehan of Lowell, the following officers were elected: Mrs. Tavern, president; Mrs. F. Tyler Carlton, vice president; Mrs. Cleveland Gilcreast, secretary; and Mrs. Stanley Smith, treasurer.

Under the leadership of Miss Barbara Loomer, the club has recently concluded a successful sale of Dutch flowering bulbs for the benefit of the Regional Scholarship Fund to which the Merrimack Valley Wheaton Club has been a leading contributor for many years.

### Must Change Area For Urban Renewal

Adjustments in the proposed urban renewal area, to meet requirements of the federal authorities reviewing the town's application for planning funds, have been suggested to the Selectmen.

A representative of the consulting firm of Candeub and Fleissig, Dean K. Boorman, said a small area around Essex and Brook sts. would have to be dropped from the renewal area. This resulted because the federal authorities claimed the local Housing Authority did not have explicit permission from the town to apply for both a clearance and

a rehabilitation project.

In the former, sites are planned for levelling, with re-use for specific purposes. The rehabilitation portion makes it possible for property owners to obtain federal funds for rehabilitation of the existing buildings.

Boorman stressed that all of the buildings in the renewal area will not be taken down—but said the town meeting vote was worded in such a way that only the clearance type of project can be applied for. In the planning stage, it would be decided which buildings would be recommended for purchase and razing and which would remain. It would also be possible for another town meeting to add the required wording to include rehabilitation.

If the present plans are approved in federal circles, and sufficient money is appropriated by congress, Andover could become eligible for about \$100,000 in federal funds. These would be spent to plan an urban renewal project. When and if the town voted to enter into a contract with the government for the project itself, the funds would become part of the over-all project cost. If the town does not approve the eventual plans, then the government stands the full cost of the plans. If the project is voted, the federal government pays two-thirds and the town pays a third of the costs.
